RE: Proposed Purchase Water Adjustment

To Whom It May Concern:

The West Shelby Water District respectfully requests that the Public Service Commission allow us to make an adjustment in our rates in accordance with 807 KAR 5:068 Purchased Water Adjustments for Water Districts.

Our supplier, The Louisville Water Company (LWC), has informed the District that an increase will become effective July 1, 2015. The District purchased 236,963,000 gallons of water from LWC from June 2014 to May 2015. At the current rate, total cost (including service charges of \$5272.56) would be \$501,894.86. With the wholesale increase, the new cost is expected to be \$515,181.85 (including service charges of \$5,711.40). The difference between the current cost and proposed cost will be \$13,286.99. The incremental cost in terms of water sold is \$0.04667 cents per 1,000 gallons. We propose to raise each our customer's rate by \$.05 per 1,000 gallons.

The following documents are enclosed:

- Exhibit A: Purchase Water Adjustment for Water District Form
- Exhibit B: Supplier's Notice of Changed Rate
- Exhibit C: Statement of Water Purchases
- Exhibit D: Statement of Water Sold
- Exhibit E: Purchased Water Adjustment Calculations
- Exhibit F: Pre-approval Notice to Customers
- Exhibit G: Revised Tariff Sheet
- Exhibit H: Post-approval Notice to Customers
- Exhibit I: Minutes with Commissioner Approval

If you have any questions, please contact Lisa M. Didier, Executive Administrator of the West Shelby Water District at (502) 722-8944.

Yours truly,

Lisa M. Didier,
Executive Administrator
